SELL!!! are the orders from headquarters and we must obey, each day finding such loose odds and ends etc. to make a greater and larger cut. So come everybody come.

## Special Meeting of the Council, July 4th TO CONSIDER THE ESTIMATES

Members all present except Alderman Botterill, with His Worship Mayor Galbraith in the chair.

A letter was read from Fire Chief Meeres stating that, owing to the accident to some of their best men, the Brigade had decided not to go to Lethbridge to take part in the Firemen's tournament, but that they wished to send two delegates to the convention, and asked for a grant of \$25.00 for same. They also wished the City to extend an invitation to the Firemen's Convention to hold their meeting in Red Deer in 1914.

Alderman Carswell moved, seconded by Alderman Smith, that the Firemen be granted \$25 to pay delegates' expenses to the Firemen's Convention at Lethbridge, and that we request the Red Deer delegates to extend a cordial invitation to the Convention to meet in Red Deer in 1914. Carried.

By-law No. 238, to authorize the signing of certain agreements between the City and the Memorial Hospital Board, was read a first, second and third time and finally passed, and signed by the Mayor and Secretary-Treasurer.

The agreement between the City and Farmers' Co-operative, Ltd., respecting the lease of the weigh scales in the C.P.R. stock yards, and the agreement between the City and the Memorial Hospital, respecting the Hospital property and the management thereof, were signed in open Council.

A telegram was received from Osler, Hammond & Nanton, saying they could meet the City's representatives in Winnipeg on Monday, July 7th.

The Mayor and Alderman Botterill (if possible) were appointed delegates to go to Winnipeg.

### COMMISSIONERS' REPORT ON ESTIMATES, 1913

To the Council,  
City of Red Deer,  
Gentlemen.—We beg to submit herewith our estimates of receipts and expenditures for the current year. In preparing these we have cut down the controllable expenditures as much as we consider possible with safety, and have considered the various items carefully.

We have provided for a Health Inspector for seven months only, as we do not consider it necessary to maintain this office during the winter.

In the fire and light account we have provided for additional lights, one to be located on 6th St. North and the other in Parkvale at the

most needed point. We have also provided for additional hydrants recommended by Fire Chief Meeres, to be located as follows:

On road near Alberta Ladies' College, at corner of 1st Ave. East and 1st St. North; at corner of Gaetz Ave. South and Victoria St. One other to be located later if necessary.

We have also provided for the uniforms and nozzles issued for by the Chief.

We cannot recommend the consideration of a fire alarm system, purchasing a motor truck or additional horse drawn apparatus, or making any extensive alterations to the fire hall building this year, as this would necessitate submitting money by-laws to the ratepayers, which would be unwise this year.

We have provided for a janitor for six months, salary to be charged to office expense, and for the other six months to Police Dept.

The amounts of the grants to the different bodies applying for them should be determined by the Council. We enumerated the grants asked for without alteration and the estimates may be amended if the Council decides to alter the amounts. We recommend that the Board of Trade be charged \$60 per month rent for the offices used by them, and that the amount of the grant to the Board be increased by \$250 to pay for this. This item a debit and credit, the amount of the requirements for general city purposes will not be altered and it will give a more accurate idea of the cost of running the Board of Trade and the City offices. At present the City office is charged with heating and janitor.

The item for relief is largely due the City having to pay the cost of caring for the man who had his feet frozen last winter.

We estimate a decrease in the receipts from building permits, licenses and police court fines, and an increase in receipts from water rates. The Commissioners pointed out in a report to Council last year that the waterworks department was not paying the carrying charges and recommended that the frontage tax be raised to 10 cents per foot, the same as Calgary and Edmonton are now charging. Power should be obtained in the City charter to charge this.

The receipts from the sale of lots we recommend be disposed of as follows: To pay instalment on nuisance ground, \$148.25; to pay for permanent improvements at cemetery, \$700.00; to remain in rest account to be expended in other permanent improvements, \$826.75.

All of which is respectfully submitted.		
F. W. GALBRAITH, A. T. STEPHENSON, Commissioners.		

Alderman Lord, in commenting on the grant to the Agricultural Society of \$2,500, outlined what they hoped to do. He said the track needed at least \$500 spent on it, and it was proposed that it be widened about 10 feet on the home stretch and also raise it about six inches at the low spots. This would be a permanent improvement. Owing to no more buildings being erected this year, they were forced to hire two tents, which were costing \$100 without the cost of erection. They proposed to move the baseball stand to about 50 feet south of the large stand, making the entrance to the paddock

rin suggested splitting and making it \$1,750. The discussion was carried on at great length and finally brought to a close by Alderman Carswell, who brought in a resolution that the Council make a straight grant of \$1,500. This was seconded by Alderman Carswell, and carried.

Alderman Murrin moved, seconded by Alderman Carswell, that capital expenditures be made on improvements to fair grounds to an amount not exceeding \$500.00, said expenditure to be made as the Commissioners may deem wise.

Moved by Alderman Smith, seconded by Alderman Lord, that the estimates, as revised, be adopted by making the grant to agricultural society \$1,500 and to the firemen \$25.00.

Council adjourned shortly after 11 o'clock.

### WANTED.

A girl for general hotel work. Apply ALEXANDRA HOTEL, Red Deer. July 2.

### TO RENT.

# THE LARGEST SALE OF ITS KIND

A MERCHANDISE EVENT OF  
UNUSUAL PROPORTIONS

TO OPEN AT RED DEER  
THURSDAY MORNING

The stock of J. M. CARSCADDEN in the hands of  
**STEWART'S SURE SELLING SERVICE**  
for quick and immediate sale

The doors of J. M. Carscadden, in Smith & Gaetz Block will swing wide open at 9 o'clock  
Thursday morning, July 10th.

The STEWART'S SURE SELLING SERVICE have been working day and night with a force of experts re-arranging the entire stock and marking down prices to the advertised figures. It will be the most spectacular merchandise event ever conceived—abounding in thrilling interest to everyone who values economy. This mighty REDUCTION SALE shatters all precedent launched in this section. The offerings are countless, covering every imaginable human need. This one sale is indisputably the most wonderful conception of them all. It comes at the right moment to lift the shackles of high prices, enabling all to enjoy the rightful return for their daily wage.

This is not a sale where a few articles are reduced, but Every Article in the Entire Stock is Ruthlessly Slaughtered. Any economical person who inspects the bargains offered will buy their entire year's supply at prices now quoted, which are absolutely below Wholesale Cost. Mail Order House Prices are Discounted Fifty Per Cent. Do not let this be a lost opportunity.

J. M. CARSCADDEN will assure you the same courteous treatment that has always characterized this store. Stewart's prices will be an inducement. DON'T MISS IT! THURSDAY, JULY 10th, 1913.

Editor and Proprietor.  
ADVERTISING RATES ON APPLICATION.

WEDNESDAY, JULY 9th, 1913.

DOES NOT REPRESENT THE FARMERS.

For years the Grain Growers' Guide has passed as the organ of the Grain Growers, says the Regina Province, and has represented that it spoke for the members of the great farmers' association. This claim has been exploded. F. W. Green, a few days ago, placed the position of the Guide and its relation to the farmers in the clearest possible light. In a letter to the Guide he says:

What I wish to point out to our readers is, first, that the Guide is not an associated organ. It is a private concern owned and operated in the interests of a private company; that in so far as the Saskatchewan Grain Growers' is concerned, we do not share in the material losses or profits of the Guide. The association has not and never has had anything whatever to do with the conduct of the Guide, either on the naval, reciprocity, free trade, sample market, elevator or any other question. The views expressed in the editorial columns of the Guide may be one thing. The views of the Manitoba association, as expressed in their portion of the Guide, may or may not be the same thing. The Alberta association may express another view, and the Saskatchewan association still something different to any of them. The Guide can only claim to be an association paper in so far as it permits the associations to set forth their views in the columns which are supposed to be conducted by the representative belonging to each association.

By an understanding reached between the executives of each of the Provincial Grain Growers' Associations; and a delegation from the officials of the Grain Growers' Guide (previous to the regime of the present editor, acting on behalf of the Guide and the Grain Growers' Gain Company) by which a paper should be conducted in the Guide by the Secretaries of each association; a resolution was put through the Saskatchewan convention at Weyburn, instructing the executive to utilize the Grain Growers' Guide for the expression of views expressed in the editorial columns of the Grain Growers' Guide.

After all its condemnation of corporations, it is rather amusing to discover that the Guide is the organ of the greatest corporation in the grain trade of Canada; that it owed its existence to the corporation, and no doubt its prosperity is dear to the heart of the same grain company.

## SUNDAY SCHOOL AND MISSION STUDY CONFERENCE.

All those who propose attending the Provincial Interdenominational Young People's Sunday School and Mission Study Conference, to be held at Alberta College, Edmonton, July 22nd to 29th, are requested to purchase full fare one-way tickets and take standard certificates from local ticket agents. Special rates have been arranged on all railways. Further information may be obtained from A. E. Ottewill, Registrar of Summer School, University of Alberta, Edmonton.

"On to Hudson Bay" is the slogan of Hon. Frank Cochrane.

They knocked out the Naval Bill at Laurier's bidding, but they did not prevent the building of the ships.

The Liberal ex-Ministers are said to have their ears to the ground. They have had their heads in the sand for some little time.

The farmers of Ontario who drive many miles if they do not attend the Laurier meetings, will probably have the question of good roads fresh in their minds on their arrival.

The Interdenominational will be without leaders for another year at least, because the Laurier majority in the Senate killed the Government Bill for the organization of branch lines.

Hon. T. W. Crothers is going to the coast to visit the mines where a strike is now in progress, and to study the difficulties on the ground. He is no arm-chair Minister of Labor.

Had it not been for Laurier and his material band of wreckers, the provinces of Canada by the end of this year would have benefited by

a new first-class highway costing a million and a half.

What the Laurierites want to give the people of Canada is a government of men who would sacrifice the Canadian home market to foreign competition and the self-interest of Canada to Nationalist anti-British influence.

The official figures of exports for the United States show that last year there was exported \$143,000,000 worth of wheat and flour. The United States is Canada's greatest competitor in the foreign market and yet the Liberals talk of a southern market for the Canadian farmer.

The Government has appointed a commission to investigate the alienation of Canada's natural resources by the Laurier Government. When this commission reports the people will know all that the Liberal majority in the House of Commons year after year voted to conceal.

The construction of three additional Dreadnoughts by the British Admiralty, to be ultimately taken over by Canada, answers the Laurier nonsense that there is no emergency. The Admiralty gets its information from the greatest diplomatic organization in the world, Laurier gets his from the Nationalists of Quebec.

Hon. Sidney Fisher wants to run in the vacant riding of Chateaugay. He is the second of the seatless ex-Ministers to fight shy of the riding which turned him out at the last election. He would rather run in Chateaugay than wait for a chance to run in his old county of Bromes. Same with Mackenzie King. Mr. King doesn't want to get a second year lacking in North Waterloo so he will try his luck in North York. His luck won't amount to much. North York has had enough of Liberal refugees and is satisfied with the capable representation of John Armstrong, M.P.

The position of the Liberal party on the naval question is frankly put by the Winnipeg Free Press, the chief Liberal organ in Western Canada. With extreme candour the Free Press says: "The Liberal position is that the Canadian Government and the Canadian parliament should decide whether Canada should fight in the Empire wars. This is the spirit of separation which was manifested in the Laurier speeches. The issue, according to the Free Press, is whether Canada is of the Empire or not. Borden says that when the Empire is at war, Canada is at war, and it must be evident to any man that we cannot be both within the Empire and without it."

## LET LAURIER TAKE THESE MEN ALONG.

When Sir Wilfrid Laurier goes on his tour of Ontario and Quebec—let him go—will he take with him as exhibit

—Hon. William Pugsley, who led the Naval blockade in defiance of the rules of Parliament.

Hon. H. R. Emerson, whose opposition to the Naval Bill led him to read from the American Declaration of Independence on the floor of Parliament.

Dr. Mike Clark, the leading figure in the memorable riot, who was named by the Speaker, and is the first man in Canada to hold that doubtful distinction.

Hon. Frank Oliver, who refused to stand up when the House sang the British National Anthem.

Hon. Sidney Fisher and Hon. Mackenzie King, whose seaming led them to get back into Parliament was largely responsible for the mismanagement of the Opposition during the session.

That eminent patriot Carroll of Carleton, N.B.?

## Evergreen

(From Our Own Correspondent)

Thus, Hadlick and son went into Red Deer last week to bring out a load of freight.

Road work has commenced on the town-hill line between townships 37 and 38. Already four metal and five timber culverts have been put in. They are intending to fix it all up. This will make a big improvement to the country.

C. C. Vanhorn was over to Raven last week on a back trip to his home on Tuesday last.

A man was coming down the road, and he met a lady on the top of a hill. She says "Where are you going?" "Why, I am going to get a haircut at Laurier."

Frank Bauer came home last week. He has been working on the railroad west of the Rocky Mountain House.

Joe Edle came in last week. He went a short time ago to look for work at the Brewery. He says there are three men for

every one man's job. Sports were held on the Clearwater on the 1st of July. A good time was reported, the weather being good.

Mrs. Rheinholt Hordan went to Calgary last week to visit friends. Mrs. Wenzel Parzani came out from Hankland last week to join her husband on their honeymoon.

The weather has been very favorable this last week, and crops are looking fine.

## MILLIONS OF CASH COMING TO CANADA

The Canadian Pacific Railway is Bringing in \$50,000,000 in Eight Months

The Monetary Times draws attention to the interesting fact that within the next eight months the Canadian Pacific Railway can bring no less than \$50,000,000 of new capital from abroad for use in this country. This sum is the portion of the amount realized on the company's recent stock issue, which will be available for transfer to Canada. It will be poured into the company's coffers in London in four instalments, which are due this month and June, August and October. This means that this one railway may bring \$135,000,000 across the Atlantic every two months until the autumn.

In Western Accounts On reaching Canada these funds will figure in the company's accounts at Montreal, Winnipeg, Calgary and Vancouver, and from these temporary resting places be scattered far and wide over the country. "Much of the money will go in the ordinary course to settle the claims of the contractors who are engaged on the company's works." In this way these contractors' obligations to their own banks will be lessened, the money will be widely distributed in the settlement of commercial accounts, and the tendency will be to ease the financial situation at least to a moderate extent.

Perhaps never before has a single stock market transaction rendered such a huge sum of money available for this country, and it is remarked that the arrival of such a large amount in a period of stringency might work harm by causing merchants and speculators to abandon their present cautious and conservative attitude which is the salvation of the situation. What is required for a complete cure is a continuation for some time yet of the present abstention from speculation and from borrowing. Bankers are advising men to go slowly and carefully, to keep their lines of credit well within control, and to postpone unnecessary extensions of plant or of business activity.

No Depression Commercial payments may be slow for the time being and real estate values may be weaker in the West, but our factories are overladen with orders and no signs of depression are discerned. If speculation is checked and if business men and manufacturers are postponing new extensions it is because of a world-wide condition—a temporary shortage of money to finance an unprecedented universal prosperity together with a costly war and rapidly growing European armaments. Once Canadian corporations and municipalities can again draw money freely from London as the Canadian Pacific Railway has done monetary conditions will become easy again here and elsewhere. And the money must be forthcoming to house and provide for the immigrants who are arriving this year in larger numbers than ever. Tens of thousands of them are going on the land and the larger proportion the better.

## FREE TRADE WAGES

Hours Are Cruelly Long and the Pay is Miserable

J. F. W. the regular English correspondent of the Toronto Globe, has recently had a little to say about the life of working people in free trade Britain.

"The London bakers have scored in a dispute with the employers, over the conditions—hours and wages—of work. The conditions are admittedly disgraceful; the work is done in many cases in dirty, underground bakeries, the hours are cruelly long, sometimes a hundred a week, and the pay is miserable 24s or 25s a week. The men have now got 30s a week and a fifty-four-hour week in shops, with sixteen hours in factories, where the work is lighter. They are satisfied for the time being, but their next agitation will be for the abolition of night-work and for the inclusion of the baking industry in the Trade Boards act. This is an act that was passed by the present Government in 1909 as an experiment in the prevention of sweating in a few trades, where sweating was notorious."

## Just Being Discovered

Writing in Industrial Canada, Mr. Norman Lamb says: "Sufficient has been shown now to prove that the prairie provinces, besides admitting of cultivation in places which at one time were regarded as indomitable, have revealed great opportunities to the manufacturer. The development of the past two years shows also that the West is just being discovered, and that discovery will not be complete until more factories, and more mixed farms, and more routes of transportation are established, making the vast prairie territory the self-supporting country. It should be."

## MEMORIAL HOSPITAL

## Proposed Basis of Agreement Between City and Board

Memorandum of Agreement made in duplicate this day of A.D. 1913.

The Red Deer Memorial Hospital, of the City of Red Deer, in the Province of Alberta, of the first part, And The Municipal Corporation of the City of Red Deer, of the second part.

Whereas the City of Red Deer has heretofore advanced certain monies towards the erection and maintenance of the Red Deer Memorial Hospital, and by virtue of a certain agreement bearing date the 26th day of June A.D. 1912, agreed to make further advance of \$15,000.00 on the terms and conditions therein mentioned and set forth.

And whereas it was therein provided by paragraph three thereof that the said heretofore first part would hereunder demand convey to the party of the second part the lands and premises therein and hereinafter referred to and described, and the legation therein referred to, having been obtained, it is deemed advisable to transfer the said lands to the party of the second part subject to the terms of the said agreement and the terms herein set forth.

And whereas the party of the first part is the owner of the contents of the said Hospital consisting of hold effects, goods, wares, merchandise, fuel, supplies, equipment, furnished warms and the like.

And whereas it was according to the last annual financial statement of the party of the first part there was an apparent deficit on maintenance account after making allowance for uncollectible accounts, the sum of \$1,000.00.

And whereas the said Hospital has been operated during the current year and further liabilities and responsibilities have been incurred. Now, therefore in consideration of the premises and of the mutual covenants and agreements herein contained and agree with the other as follows: That the party of the first part will transfer or cause to be transferred to the party of the second part Lot 12, lettered "H", as the same is shown upon a map or plan of record in the land titles office for the North Alberta Land Registration District, Plan K2, (excepting the Western two hundred and thirty-one feet which lies immediately south of Lot 12, lettered "H", as shown on said map or plan) together with all the said furniture, fittings and all and every article or thing therein used in connection therewith, the property of the party of the first part.

2. That the party of the first part, will assign, transfer and set over unto the party of the second part all the real and personal property, rights and claims (saving and excepting so much thereof as is represented by the excepted piece of land above mentioned and the monies to arise therefrom).

3. That the party of the first part will continue in office (subject to the rules and regulations relating to resignations and filling vacancies now in force) until the next annual meeting or until their term of office expires, subject as hereinafter provided. That the Board of Directors of the party of the first part and their successors in office will continue to manage and direct the management of the hospital in the same manner as the same is now being carried on.

5. That the party of the first part will in its own name collect in all outstanding accounts as far as possible and accounts for the same in its statement of affairs from time to time as may be required by the party of the second part.

6. That the party of the second part shall at any time terminate the agreement and thereupon the rights of the party of the first part to participate in the management of the hospital shall cease and the party of the second part shall agree to set over to the party of the first part all the property of the first part as follows:

(a) That upon the execution of the transfer and bill of sale heretofore provided for the party of the second part will as soon as the same is received convey to the party of the first part or cause to be paid all the assets and obligations of the party of the first part.

(b) That from time to time during the currency of this agreement and as often as may be reasonable required, the party of the second part will provide for the party of the first part with such sums of money as may be requisite and necessary to meet any deficit or deficits in the maintenance of the hospital.

General (c) The party of the first part will not at any time incur any debt, obligation or liability in connection with the construction, extension, enlargement or repair of the building of the hospital, except for ordinary and reasonable repairs and repair, with the approval of the party of the second part first had and obtained.

(d) That the rules, regulations and by-laws of the party of the first part now in force shall continue in force until repealed, altered or amended; provided that whenever any appeal, alteration or amendment shall have been made a true copy of the same shall be furnished the party of the second part and the party of the second part shall have the right to disallow the same in whole or part within thirty days after the receipt thereof, and thereupon the part or parts so disallowed shall be deemed not to have been enacted.

(e) That the management of the hospital shall unless otherwise mutually agreed upon be vested in the board of nine directors, three of whom shall be members of the Municipal Council of the party of the second part and six are to be elected by the Corporation of the party of the first part.

(f) That all residents of the City of Red Deer or immediate district, who shall have paid an annual fee of one dollar shall be eligible for election as a director.

(g) Whereas the party of the first part has entered into an agreement to sell the above excepted parcel of land to the Cement Builders for the sum of \$3000, on which purchase price the sum of \$500 has been paid, all of which purchase money was by the party of the first part intended to be used in the erection of a Nurses Home.

(h) And whereas in the event of the Cement Builders Limited or its successors or assigns completing the said agreement, then the party of the first part will forthwith pay the said balance of purchase money to the party of the second part, and in the event of the said agreement being put to an end in due course, the party of the first part will then convey the said excepted parcel of land to the party of the second part for the sum of \$1.

(i) Notwithstanding anything herebefore contained the parties hereto shall have the right from time to time and at all times to make different or other arrangements for the affairs of the hospital as may be mutually agreed upon.

In witness whereof the parties hereto have hereunto affixed their corporate seals and caused these presents to be signed by the proper officers in that behalf.

## Eckville

Mrs. J. J. Clausen and children are visiting at Inisfail.

Misses L. Galbraith and W. Wood, of Toronto, spent a week visiting the sister, Mrs. W. G. Evans.

H. Palmer, the blacksmith, is the busiest man in town these days.

J. E. Lundberg went to Lacombe and Stettler by train on Thursday and returned on Friday.

The bridge across the Saskatchewan river has been completed, and trains are now busy hauling steel for the extension of line west of the river. The mill train which has been making two trips a week, will make only one in future, coming west on Thursday, in place of Tuesday and Friday, owing to the number of work trains busy on the line.

The extension of the line will be commenced in about a week, and it is expected that the portion between Stettler and the Mountain House will be in operation in a few months.

Many of our citizens celebrated Dominion Day at outside points, notwithstanding the money stringency and quiet times reported in other places. Dr. Evans has completed an extension to his house and has enlarged the drug store. P. Porter is rushing the work on his dwelling. The mill Mount & Williams are building a large addition to their meat market.

## Ardley News

July 4th, 1913. The evangelistic meetings being held in the hall this week have been well attended. Rev. Mr. Johnson conducting the services is a very able speaker.

Jack Little was a visitor from Lonsana on Thursday.

Mrs. Graham was a visitor at Mrs. Hoth Hamilton's this week. Elias Code is down from Alaska attending the wedding of his brother Duncan, and stopped off at Ardley with the intention of buying some work horses.

Mr. Robert Hartman and family

moved to Edmonton this week, where they will make their future home. Their many friends regret to see them leaving Ardley.

The game in this locality seems to be more plentiful this year than it has been for some time, especially ducks.

The river has been very high of late, which puts the anglers some what out of business.

Will Gwynne has improved his farm this year with a lot of breaking and fencing.

The Ladies' Aid met at the home of Mrs. Keganaberger on Wednesday, the 9th. They expect the ladies of the Delburne Aid to be present.

We welcome Mr. Addison, our Methodist minister for the year to Ardley. The U.F.A. will hold their picnic at Ellsboro Lake, on July 10, 1913. Everybody come and have a good time.

Mr. Sweeney has completed his blacksmith shop and is now open for business. He has also been hauling lumber to build a residence.

## Sylvan Lake Regatta

Saturday next, July 12th, promises to be a gala day for the village of Sylvan Lake, when they hold their first annual regatta. A strong Red Deer Committee is working with the Lake Committee, and so far everything has been done possible to make it a success. The Red Deer Committee, whose duty it was to gather in the subscriptions, were very successful (even touching us up for a contribution), so that the prize list will be a good one and worth getting after. Regattas are something out of the common for inland cities and towns, and it is probable that a very great number of people, not only from Red Deer and district, but from Edmonton and Calgary and neighboring towns, will avail themselves of this, the first opportunity probably in Alberta, of seeing a regatta. The programme is an attractive one, and is sure to give pleasure to everyone, as it consists of motor boat racing, row boat and canoe racing, swimming and other aquatic sports. The Red Deer Citizens' Band will be in attendance, and fine weather is needed to ensure a most enjoyable time. Capt. Cottingham, Chairman, and R. B. Gillingham, Secretary, will give any information required.

## CANADIAN INDUSTRIAL EXHIBITION

## WINNIPEG, Man.

July 8 to 16, 1913

SPECIALLY LOW FARES from stations in Ontario (Pack William and West), Manitoba, Saskatchewan, Alberta and British Columbia.

Good going July 8th to July 15th, 1913, inclusive. Returning Saturday, July 19th.

For full particulars apply to all Grand Trunk Pacific Agents and Train Agents.

W. P. HINTON, General Passenger Agent, Winnipeg, Man.

W. J. QUINLAN, District Passenger Agent, Winnipeg, Man.

## MAIL CONTRACT

## WHOLE LINE UNDER CONTRACT

**Energetic Work of Conservative Government means speedy Action where Liberals did Nothing but Hand out Promises at Election Time.**

After fifteen years waiting, and after fifteen years of election promises and lethargy on the part of the Liberals, the West is at last seeing the much-promised Hudson Bay railway being rapidly rushed to completion. All the Hudson Bay Railway was ever used for the Liberals was as an election cry in the West. Before every contest in the West posters were displayed with statements in regard to the speedy construction of the road, and the promise that it would be at once built was made on every platform.

## THEN THEY FORGOT.

After elections the project was conveniently forgotten for another four years. This happened election after election until by 1911 all that had been built was one pier on a bridge across the Saskatchewan at Le Pas. The first contract was hurriedly let a couple of weeks before the date of the election.

## THIS MINISTER ACTED.

When Hon. Frank Cochrane came into office as Minister of Railways he found the department without any practical information as to the best routes, suitable ports or the feasibility of navigation in the straits and on the bay. With all possible energy he set about securing this information, while the contract for that portion of the road which was common to either the Port Nelson or Port Churchill route was let so that there could be no delay.

## PORT NELSON SELECTED.

An expedition was sent north with expert engineers on board to select the best harbor and to make a further inquiry as to the route. As a result Port Nelson was selected, and an engineer with staff spent the whole fall and last winter on the ground laying out the new harbor.

## ALL UNDER CONTRACT.

The contract has now been let for the whole line from Le Pas to Port Nelson, and 185 miles of steel will be laid by this fall. Work is being rushed at the harbor end. During the next two weeks a whole fleet of steamers will leave Halifax for Port Nelson with no less than 240 men and loaded with supplies and equipment.

## A LARGE PART OF THE TIME.

As a large part of the time this season will have to be spent on erecting permanent buildings for the men who will be working at Port Nelson, all summer, fall and winter. The erection of the plant will also take considerable time. It is hoped, however, that substantial progress in the work of the construction of the harbor can be made this fall, and by the opening of the Nelson river in the spring, everything will be in shape for a vigorous prosecution of the work.

# Agricultural Grants Now Being Made

NEARLY THREE-QUARTERS OF A MILLION TO BE PAID OUT THIS YEAR UNDER BILL WHICH LIBERALS OPPOSED.

During the next couple of weeks the agreements under the Aid to Agriculture Bill, which was passed last session, will be signed between the provinces and the Dominion.

The agreements for Ontario and Prince Edward Island have already been signed and negotiations in regard to the others are now in progress.

## LIBERALS OPPOSED IT.

Under the act which Hon. Martin Burrell, Minister of Agriculture, had passed last session—and which, by the way, the Liberals opposed—no less than ten million dollars is appropriated for the encouragement of agriculture, the amount to be spread over ten years. The sum of \$700,000 is allotted this first year, and this amount will be increased by \$100,000 annually until 1917, from which year until 1923 \$1,000,000 will be provided yearly. The gradual expansion and growing equipment of the provincial organizations, it is felt, will be met in this way more helpfully than by starting at the million mark.

## HOW IT IS DIVIDED.

The following table shows the amounts each province will get and the yearly increase:

	1913	1914	1915	1916	1917	1918	1919	1920	1921	1922	1923
Prince Edward Island—	\$25,529.89	\$1,306	\$31,753.73								
New Brunswick—	44,569.93	4,902	64,117.87								
Alberta—	16,094.95	5,219	66,970.91								
British Columbia—	47,234.76	5,167	60,262.57								
Manitoba—	51,730.05	6,346	77,144.49								
Nova Scotia—	51,288.45	6,858	81,719.21								
Saskatchewan—	51,296.29	6,859	81,733.32								
Quebec—	150,482.10	27,896	271,068.32								
Ontario—	105,733.32	35,147	336,319.48								

## INSTRUCTION AND EDUCATION.

The money is being spent largely to strengthen all lines of instruction at all educational work. The purpose of the Minister cannot be better set forth than quoting from his speech delivered in the house when the measure was introduced:

"Help is given in an educational direction will not only mean better farming, but better farmers and better citizenry. The particular form such assistance may take may vary with the special needs and conditions in each province. It will embrace the increasing of the efficiency and equipment of our

ments. The first two steamers, along with a number of tugs and scows, leave this week.

## WIRELESS EQUIPMENT.

The steamer Baltic will leave for Port Nelson about July 1, and in addition to her supplies, will take north a wireless equipment which will be at once installed. Another wireless station is to be located at Le Pas, and in that way, it is hoped, the engineer at Port Nelson will be able to keep in direct touch with Hon. Frank Cochrane, Minister of Railways at Ottawa.

A fourth steamer will leave in July, loaded largely with coal. An additional schooner and tug are also leaving this week, while another ocean tug will leave by the end of the month. They will all be needed on the harbor work.

The steamer Minto, which is being repaired at present, will also likely go north in July with supplies.

## BUILDING THE DREDGE.

Arrangements are being made at the present time for towing the mammoth steel hydraulic dredge, which is being built at Toronto especially for this work. The dredge is contracted to be ready by August and to finish it in time 600 men are working on it night and day.

## TAKING TIMBER UP.

The timber at Port Nelson is hardly large enough for use in dock construction, while there is no mill plant, so two steamers are being loaded at Port Arthur, Texas, at the present time with southern pine, which is regarded the most desirable timber for such work. They will leave at once for the bay.

## MUCH WORK THIS YEAR.

As a large part of the time this season will have to be spent on erecting permanent buildings for the men who will be working at Port Nelson, all summer, fall and winter. The erection of the plant will also take considerable time. It is hoped, however, that substantial progress in the work of the construction of the harbor can be made this fall, and by the opening of the Nelson river in the spring, everything will be in shape for a vigorous prosecution of the work.

## WAR ON WHITE SLAVE TRADE

The House of Commons gave some attention to the question of the white slave trade, and a resolution, and definitely declared war on it.

"So far as I am concerned I will leave no effort unmade to stop this absolute evil," declared Premier Borden.

"Hear, hear," was the emphatic endorsement of Sir Wilfrid Laurier. The Premier was further able to inform the House that Col. Sherwood, head of the Dominion police, has been authorized to put every force at his disposal to stamp out, and a vote of \$100,000 had been passed in the estimates at his disposal for this purpose. Further steps will be taken both as regards prevention and punishment.

Regarding the latter, changes had been made in the criminal code this session, "but," said the Premier, "if it is necessary to go further, I am prepared to see that this crime shall be punished as it ought to be punished. I will pledge myself to do my utmost to put such measures through this House."

## HOUSE TO BENT.

The brief discussion arose when Mr. Andrew Broder argued that steps should be taken by the Government to prevent the operations of white slave on the trains, and among young girls who came into the country under the auspices of the Immigration Department.

A fully modern, five-roomed house, with stable, to rent, on Victoria Avenue. Rent, \$20.00 per month. Apply to MOORE & HOGG, 26, Gaetz Avenue South, Red Deer, July 2, 11.

Chicago, Ill., June 30.—Chicago and adjacent territory today sweltered and stumbled through the hottest day in its history, the official record being slightly over 100 degrees, this in the tower of the Federal building, in the shade and with the benefit of the lake breeze.

Down in the steamy streets and in the parched and baked suburbs, the temperature was much higher. Men and horses fell like plums from trees, and reported 26 deaths for the last 14 hours, and there were 76 prostrations, the principles have asserted themselves, when temperance has become, not only a moral question, but a political one, of even national significance, the press has not only preached toleration, but has become the strong champion of the principles of its philosophy.

The press has done this because it is wise in its method. It has asserted itself, not only a moral question, but a political one, of even national significance, the press has not only preached toleration, but has become the strong champion of the principles of its philosophy.

The press has done this because it is wise in its method. It has asserted itself, not only a moral question, but a political one, of even national significance, the press has not only preached toleration, but has become the strong champion of the principles of its philosophy.

# THE RELATIONSHIP OF THE PRESS TO THE W.C.T.U. MOVEMENT.

No public movement can today succeed without the aid of the press, in some form or other. If a person has any vital message to convey, if he wishes it to be fraught with broad and far-reaching results, he must deliver it to an audience larger than that within the range of his voice. The press is the great means of multiplying one's audience. It has become almost the sole and indispensable medium of publicity in every propaganda for good or for ill within the last century. The great temperance movement cannot reach the goal of success without the assistance of the press. For without it, it must be a narrow localized movement, and cannot take its place along with the questions that vitally determine the fate of the nation.

The press in the past history of the W.C.T.U. has done much to contribute to the success of our society. It has scooped at it—it has persecuted it—it has which have served to strengthen it within itself, and to give it a stronger grip on the sympathies and hearts of an ever-widening circle of adherents. Finally, when temperance principles have asserted themselves, when temperance has become, not only a moral question, but a political one, of even national significance, the press has not only preached toleration, but has become the strong champion of the principles of its philosophy.

The press has done this because it is wise in its method. It has asserted itself, not only a moral question, but a political one, of even national significance, the press has not only preached toleration, but has become the strong champion of the principles of its philosophy.

The press has done this because it is wise in its method. It has asserted itself, not only a moral question, but a political one, of even national significance, the press has not only preached toleration, but has become the strong champion of the principles of its philosophy.

The press has done this because it is wise in its method. It has asserted itself, not only a moral question, but a political one, of even national significance, the press has not only preached toleration, but has become the strong champion of the principles of its philosophy.

The press has done this because it is wise in its method. It has asserted itself, not only a moral question, but a political one, of even national significance, the press has not only preached toleration, but has become the strong champion of the principles of its philosophy.

The press has done this because it is wise in its method. It has asserted itself, not only a moral question, but a political one, of even national significance, the press has not only preached toleration, but has become the strong champion of the principles of its philosophy.

The press has done this because it is wise in its method. It has asserted itself, not only a moral question, but a political one, of even national significance, the press has not only preached toleration, but has become the strong champion of the principles of its philosophy.

The press has done this because it is wise in its method. It has asserted itself, not only a moral question, but a political one, of even national significance, the press has not only preached toleration, but has become the strong champion of the principles of its philosophy.

will read all kinds of temperance literature and be interested and benefited by it, so long as at the beginning the headlines do not spell temperance or W.C.T.U. propaganda. A newspaper is a newspaper, and this fact should not be lost sight of in the use made of the daily and weekly press. All contributions should be written in such a way as to evidence the elements of news. These are interest and readability. They must have a sort of universal appeal. Nothing will so outrage an editor who possesses the sense to deliver it to an audience larger than that within the range of his voice. The press is the great means of multiplying one's audience. It has become almost the sole and indispensable medium of publicity in every propaganda for good or for ill within the last century. The great temperance movement cannot reach the goal of success without the assistance of the press. For without it, it must be a narrow localized movement, and cannot take its place along with the questions that vitally determine the fate of the nation.

In reports of meetings, conventions, etc., there should be no mere detailing of events, but a judicious selection of items that possess the elements of news. Newspapers are private institutions, run in the interests of individuals or corporations. Space given by an editor to our society should be considered as a favor, and the best method of showing appreciation of such is by using it in such a way as to not only further the interests of our society, but to add to the general attractiveness of the paper. Let quality, not quantity, be the motto in our press work.

Do not consider the press under an obligation to print your copy. Learn why it is refused. A personal visit—the exercise of a little tact—will secure nearly any editor's support. The editor wants news and readable copy. If you have it, he'll find the space; and if it possesses the merit, it will soon find the audience you desire to reach.

Finally, in summing up: The daily and weekly newspaper press affords the greatest press opportunity for the dissemination of the principles of our society. It can and ought to be utilized to this end. This can be done only by our purpose conforming to the purpose of the press, namely, that of furnishing news and reading matter of an interesting, readable and instructive nature.

Judicious selection of correspondents and of subject matter should always be our aim, and in our dealings with editors we should not forget to show due gratitude for any consideration from them, as well as common civility and tact.

If this course is pursued, we can utilize this great opportunity to its utmost, and its influence will be great and far-reaching, so that ultimately those doctrines and principles that we stand for may become interwoven into the very warp and woof of our national morality, and stand the basic principles of our nationhood.

## Why Shouldn't You Feel Good?

Too many of us OVERLOOK health happiness in this world.

We grow careless about the MINOR ills of life and rarely experience the JOY of living.

The average man or woman cannot conscientiously say that he or she feels FIT and WELL every day in the year. Modern methods of living are against good health—and render us peculiarly susceptible to Indigestion, Dyspepsia, and Illnesses.

Our stomachs are always bothering us. We grow accustomed to feeling wretched—but not sufficiently wretched to bother the doctor.

But there is a cure for this wretched feeling. Take 15 drops of Mother Scott's Curative Syrup. This great English remedy brings QUICK relief to the disordered stomach.

It restores the digestive organs to normal action and keeps them in a healthy condition. It is almost purely herbal—Nature's own remedy for sick stomachs.

Get Mother Scott's Curative Syrup. Take it regularly—then note the improvement in your health.

Price \$1.00. Trial size, 50c.

For Sale by GARTZ-CORNETT DRUG & BOOK CO., LIMITED, Red Deer, Alta.

## Edmonton Exhibition Prize List Now Out

The prize list for the Edmonton Exhibition, August 11th to 16th, is now out. \$50,000.00 is provided in purses and prizes, an amount largely in excess of last year. Perhaps the most notable increases are for cattle and swine. This year \$8,400 is given for cattle, the amount last year being \$5,500. The largest increases are in the dairy breeds, which are this year placed on the same basis as the beef breeds. For swine \$2,500 is being given this year; last year the amount was \$1,410. This year Hampshire hogs have been added, while Jersey, Chester, and Poland Chinas have been placed on the same basis as the Yorkshires, Berkshires and Tamworths. One of the special features of the horse department is the \$200 in prizes given for teams the property of a person engaged exclusively in farming. To be driven by the owner or owner's son, first prize \$80, second prize \$60, third \$40, and fourth \$20, the prizes being donated by S. H. Smith, of Edmonton, and the class being restricted to grade horses. In every department in the show liberal increases have been made. Entries close July 28th.

NEW STOCK PAVILION COMPLETED

For this year's exhibition at Edmonton the large stock pavilion will be completed, which will to a large extent make the show independent of the weather. The judging can take place inside the arena, which is 83 x 315 feet, has seating capacity for 5,000 people, and stabling for 200 animals. Many other improvements have been made in addition to the completion of this building. The Manufacturers' building has been floored with cement, a tunnel has been made under the race track to permit horses to go to and from the stables to the show ring in front of the stand without interfering with or being held up by the races. The accommodation for poultry has been doubled, and an entirely new building fitted up for the dairy product and domestic manufactures. Excursion rates will be in force on all railroads.

EDMONTON POSTERS OUT.

The poster which has been gotten out by the Edmonton Exhibition this year is quite original and decidedly artistic and attractive. The man who has standardized this poster is used it for a banner on the outside cover of the prize list, also in the newspapers. It is the intention to use it on the entrance which will be tested for the exhibition. It must be seen in the rich coloring of the poster to be fully appreciated. In addition to its appearance the poster also conveys a message to the public on the progress and advancement which have been made in Western Canada. The illustrations are of "Glenora," the grand champion fat steer exhibited by J. D. McCreary, of Brandon, Man., at the International Fat Stock Show in Chicago, last December. "Roseland," the champion dairy cow of the British Empire, owned by C. A. Julian-Sharman, of Red Deer, Alta., while the centre picture, which really "makes" the poster, is a picture of Mr. Sharman's young son, "Broughton," seriously engaged with one of "Roseland's" offspring.

Corrupt Methods of the Scott Government

The Scott government is at its old tricks in the Saskatchewan. Disgraces concerning the Hanley by-election tell the story of open corruption on the part of the Liberal leaders. And the cabinet ministers of the Scott government were there to see that the constituency was debauched. Bribery was open and unashamed. Friday, the day before the polling, a visit was made into the constituency by the Liberal leaders, and they paid for lawful aid to the Liberal cause. It was estimated that \$20,000 was the amount Scott found necessary to play in the constituency to avoid defeat. This does not include the road fund, which was lavishly distributed where the money would help the Liberal interests. These methods and these men are the same that Scott and Oliver attempted to utilize in the Manitoba federal election. They might have succeeded in their corrupt scheme but for the alertness of the Manitoba government.

With all the machinery of the province at their disposal, they were successful in Hanley, though the majority was 130 less than the riding returned the Liberal candidate by at the last election. However, the activity of the Scott leaders and the boldness indicate the desperate state of the provincial government. That Scott thought it necessary to put his five ministers and a dozen members of the legislature in the constituency during the campaign is evidence that he feared the resentment of the people. He knows that even the Liberals of Saskatchewan resent the corrupt methods by which he retains power. Years will be required to overcome the demoralizing influence exerted by these barons in the campaign. No one is deceived by the stance they conducted. It was a disgrace to the country and worthy of the men with which Premier Scott has surrounded himself—Winnipeg Telegram.

## VISITING RELATIVES

Maisie Explains Why She Declined an Invitation.

By WILLA KENDALL.

"Maisie, how dared you refuse Mrs. Winston's invitation in such an ungracious, abrupt manner?" asked Louise in astonishment.

"Didn't you hear her intimate that she'd treat me just like one of the family?"

"Isn't that the height of hospitality, to make guests feel as if they were at home?"

"There's no place just like home," answered Maisie emphatically, "and I'm rather glad of it. Who wants to be treated when she's visiting with that easy familiarity and the restraints showered upon a relative?"

"I haven't done much globe trotting and my experience has been rather limited," said Louise, "but what has made you so cynical?"

"When I visited my aristocratic cousin the Mannings, I was received with cordial greetings and had visions of a very gay week-end, until Cousin Jane announced, 'Put your wraps and bag anywhere; the maid is out. I hope you're not hungry as we have only a light lunch. We're not going to make any fuss over you, but treat you just as though you were one of us.'"

"Didn't you have enough to satiate your hunger?"

"Hardly. A simple repast served on gorgeous dishes is no more satisfying, even if a butter steak is back of you and picks up your appetite, than if you are served on premium dishes that come with a pound of coffee. We were hardly through when the table was commenced to whine. 'We'll have to stay with her while the nurse goes on an errand,' said my hostess. The next

'Put Your Wraps and Bag Anywhere; the Maid is Out.'

hour was spent in entertaining the youngster, who broke my eye-glasses and then laughed with joy."

"I suppose you had to meet all of your cousin's friends and be on exhibition the rest of the time," said Louise sympathetically.

"No such luck. As the infant could not be trusted alone he was left in my charge for the greater part of the afternoon while Mrs. Manning entertained company. Upon the departure of her visitors, my aristocratic cousin said in her most charming manner, 'Dearie, Mrs. Johnston can't attend the meeting of the U. S. L. so I have to leave a paper to read in place of hers. Will you assist me? You're so clever, it will be real quiet here tonight. I knew you'd prefer spending the evening with us to rather than being bored by strangers.'"

"How selfish. Didn't you meet any young men?"

"Not that you could notice it. We labored over the intricacies of the suffrage question until I crept to my room weary with the words, 'Votes for Women,' ringing in my ears. I hardly had fallen asleep when a thundering knock at the door awakened me. Hastily dressing I rushed downstairs to inquire what the trouble was. My hostess greeted me with a smile. 'We're early risers,' she said. 'Usually our guests have their breakfasts in their room, but as you're just like one of the family, we thought you'd prefer to join us. Didn't you rest well? You look rather tired.' I assured him I felt splendid, and then sat down to listen to family arguments and complaints about the high cost of living, extravagant wives, and sarcastic remarks about husbands who were growing too stout."

"Rather interesting," commented Louise. "You're usually so tactful I presume you had eyes that didn't see and ears that didn't hear family squabbles."

"Just so."

"Did you go motoring often?"

"No. I was compelled to refuse an invitation as my cousin said it was so rarely she had anyone whom she could trust to tell her a good word."

"I should go with her to the dressmaker. Do you think it was any great pleasure to go to the hairdresser's and to the caterer to order flowers and French pastry for a dinner to be given after I left?"

"At my rate, you didn't have any expense," said practical Louise.

"You forget the tips for the servants, and the presents for the child."

"The Mrs. Mannings forced me to go and had to borrow mine, say-

ing 'there's no one I'd rather ask than you.' Evidently five dollars is a more trifling sum to her, for she didn't return the money I left in it and I never had the courage to give her a gentle reminder. That evening I was requested to show the cook how to make a fish timbale with mushrooms."

"Did they compliment you on your culinary ability?"

"Not nearly as much as they beamed the fact that I burnt one of the cook's favorite pans, and that she vented her spleen on me because I came into her kitchen. To cap the climax the young heir of the house burst into an avalanche of tears because no one would escort him to the Five-Cent show. His father had an engagement, his mother a convenient headache, and the governess expected her gentleman friend. All gazed at me until the power of suggestion was so strong I volunteered my services. Unfortunately I wore my skirt on one of the seats, and there was such a draught that I caught a severe cold, and I've had it so long that I'd be loath to mention it."

"Was your kindness appreciated?" asked Louise.

"It seems we went to the theater which was the wildest, most exciting and thrilling film, and I was roundly censured for taking the boy there instead of to the opera house."

"Did you remain long?" interrupted Louise in a sympathetic tone.

"Too long. I was persuaded to telegraph George that it was an utter impossibility for me to keep a theater engagement with him."

"Why?"

"How could I refuse my cousin after he had been so kind to me, when she had such a headache and I was the only one who was able to decorate the table for her birthday dinner the next day? George didn't believe my excuse and took Dorothy."

"Why, I saw George and Dorothy together last night."

"Yes, I know he's been taking her ever since. Do you blame me for not accepting Mrs. Winston's invitation?"

(Copyright, 1912, by W. G. Chapman.)

## THE POOREST OF ALL PEOPLE

Natives of the Arctic Who Have Enough to Eat Are Considered Very Fortunate.

I have not known so poor a winter during the whole of my stay among the Eskimos (now 22 years), says a writer in the Christian Herald. While the coast is ice-bound, the days short, snowstorms frequent and the thermometer often 40 degrees below zero, it is not possible for the Eskimo to do much to secure a living. One way for the women to produce something was to cut holes through the sea ice, which reaches a thickness of six feet, and there they stood fishing for rock cod, most days securing only between five and ten fish. The mission endeavored to help, but poverty was so general that all resources were taxed to the utmost.

An outsider has no idea of what poverty among the Eskimos means. At the best of times the wants of an Eskimo are few and his food consists of the coarsest of substances. Seal walrus and whale meat form a large part of their diet, and the blubber of these animals serves in the place of pork or butter.

In China the famished inhabitants subsisted on roots or some inferior vegetation, but here the vegetable kingdom has nothing to offer. The earth is frozen and deeply covered with snow and ice; the birds have gone south and one might walk for miles without seeing a living creature. At the same time it is of importance to the Eskimo to know people have for ages found a kind of substitute for food somewhere. Along the beach, which is known to have plenty of sea shells, are cut through the thick ice and the seaweed and mussels pulled up through the holes, and it is on record that the Eskimo has sustained life on this, one might say, refuse of the sea, during the long winter months.

The Eskimo has no word for "God" in his language, and it has been fully marked that the very austere aspect of life may have helped to exclude the conception of a superhuman benefactor. Being from the beliefs and superstitions of these people of the Arctic.

World's Oldest Museum.

The oldest museum in the world may be found in the city of Nara, the former capital of Japan. It was its collection of books that has gone through all the changes of the Japanese empire without one single addition to its collection. It is now in the hands of the few Europeans who were permitted to visit this museum. It opens its doors but once a year, on a day known as a special committee inspect the collection, and a new list is made out. The museum contains about 3,000 articles, which are said to be the most beautiful specimens of decorative work which have ever been produced by human hand, such as lacquer ware, decorative furniture, enamel ware, earthenware, etc.

The origin of the majority of the articles is uncertain; some came from China and others from Korea, but most of them appear to be of a more exotic origin. All, however, came of a year prior to the year 765.

Unkind Suggestion.

"Ladies and gentlemen," said the manager, before the curtain, "it is my unpleasant duty to inform you that Mr. C—, the star comedian, owing to illness, will not be able to appear tonight. His system has had a severe shock, and he is suffering from nervous prostration."

"What's the matter?" shouted one of the gods from the gallery. "Did he pay him in advance?"

Beer As a Food

When a man buys five cents' worth of bread he gets a half ounce of nourishment. When he buys five cents' worth of beer he gets a half ounce of alcohol and an amount of nourishment too small to count upon. At five cents a glass the beer drinker pays \$25.20 for a barrel of

beer. Of this barrel of beer, 93 per cent. is stale water, and more than one-half of what is left is alcohol, which is a poison, and only 2 per cent. of the whole is protein, and a poor kind of protein at that. Not only is that barrel of beer not food, but the man who drinks it decreases his efficiency 10 per cent. by swallowing a gallon and a half of alcohol poison. The very little poor food in beer is further spoiled by being mixed with this poison.

## Synopsis of Canadian Northwest Land Regulations.

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta.

The applicant must appear in person at the Dominion Lands Agency or Sub-agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3.00 per acre.

Duties.—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price \$3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

Deputy of the Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

## OUR WATERWAYS

Their Development of Great Interest to all Parts of Canada.

The development of Canada's inland waterways should be proceeded with. A pamphlet lately issued by the Great Waterways Union deals with the problem in a comprehensive and convincing manner. Transportation, we are reminded, is the most important material and economic question before the people today. Transportation by water on a first-class ship-way is not only cheaper than by rail but often much quicker. According to the United States Interstate Commerce Commission, the average cost of moving freight by rail in a recent year was 7.48 mills per ton per mile. For the same year the cost of moving freight by the Saint Lawrence Canal route was .81 of one mill per ton per mile, or one-sixth of the average rail rate. The average cost of handling freight by the various water ways of the United States is one-sixth of what it is by the railways. All money spent on the improvement of American waterways has returned to the people of the United States dividends of 100 to 200 per cent. annually in reduced freight rates.

From Lake Superior Westward in European countries where the people own and operate the railways, the most is made of natural water transportation for the benefit of trade and the general public. In countries, however, where railways are operated chiefly by private corporations, natural advantages are more likely to be neglected. In Canada, the subject in Canada is to be seen not only in the inadequate development of water connection from Montreal to the Upper Lakes. It is quite as noticeable in the failure to provide water transportation from Lake Superior to the Western Provinces via the Lakes of the Woods, Lake Winnipeg, the Saskatchewan and other rivers. Were this route developed, not only would it provide for an enormously increased volume of traffic, especially of grain and coal, but it would result in a great lowering of the freight charges by the railways.

Through the Prairies as to the feasibility of water transportation: cross the Canadian prairies, Sir Robert W. Perks, of London, England, writes: "Whenever I have been out West I have been struck with the fact that no organized and effective effort has hitherto been made to use those magnificent waterways. I do not know whether you have ever been down the Durance as I have been, and watched the huge flat barges carrying very often 3,000 tons, half a dozen of them in tow of a small tug, and all laden with grain. The cost of carrying grain by this method is infinitesimal; and were a system of this sort adopted in the West, the value to the vast grain-growing Prairie Provinces would be incalculable. Professor A. B. Willmott believes that a barge canal may easily be built at small expense from Edmonton to Winnipeg, and adds that a similar waterway from Winnipeg to the head of Lake Superior would, if constructed at reasonable cost, indefinitely lower freight charges."

## REVIVE FARMING

The Need of Getting in Touch With the Most Progressive Farmers

Mr. Roosevelt has summed up the need for a "revival" of farming in the following words: "The English speaking peoples, not only in America but of Great Britain and the colonies, must wake up to the fact that for over half a century every wise advance in the line of proper development of farming life has taken place in certain progressive States of the Continental Empire. I hope a very full study will be made of the rural situation, because in that country most progressive farmers are reorganizing their business upon lines laid down after a study of the continental agricultural systems I have mentioned. The Canada is in the same position as the United States so far as the need for reform is concerned may be accepted without question. During ten months of last year this agricultural country, which hopes to be "the bread basket of the Empire," imported eleven million dollars of eggs, and millions of pounds of butter. Something is radically wrong when a rich farming country cannot feed itself. Saskatchewan appointed two delegates to accompany an American Commission of Inquiry which sailed for Europe this spring. Every other Province of Canada should be represented as well. The expense is not heavy, and the opportunities for investigation will be exceptionally great."

The Northwest Brass Foundry Company, Limited, operating a present thirteen factories in the United States and two in Canada, will establish a plant in Calgary, costing \$300,000, and employing 500 men.

## SUCCESS OF RED DEER CITIZENS AT CALGARY DOG SHOW

Yie. Houde of Red Deer, took 2nd prize at the Calgary dog show in the bull dog class, with his dog, Toy, beating the champions of Vancouver, Toronto and Edmonton. Phil. Edgerton, showing in the Irish setter class, took 3rd prize with his imported setter dog, Millie; and Charlie Crumshank also took a 3rd prize in the smooth-haired terrier class with his fox terrier, Trisxie.

## LEADING GRAIN GROWER NOW A MANUFACTURER

Mr. W. J. Tregillus' Plant at Calgary for the Manufacture of Clay Products Nearly Completed

Mr. W. J. Tregillus, the leader of the free trade movement in Alberta has become a full-fledged manufacturer. His new enterprise in Calgary for the manufacture of clay products such as tile, sewer pipe, brick, etc., will soon be ready for operation. The concern is known as the Tregillus Clay Products Company and according to a Calgary newspaper has a capital investment in lands, buildings and machinery of \$500,000; it will turn employment for 200 skilled artisans just as soon as the necessary buildings can be completed and it is expected that the number of employees will ultimately be increased to 500. The machinery, which involves the expenditure of at least \$100,000 is being installed and the big plant will be turning out its products very shortly. The plant will be located in the Bow Valley, about one half mile from the Bowness bridge, close to the river, and about four miles west of the Calgary post office.

It is of interest to note that Mr. Tregillus has not embarked in a free trade industry such as blinder twine and cream separators which his friends have informed the people of Canada are in higher prices than in the States. Instead he will manufacture articles some of which are the most highly protected in Canada. For instance the duty on sewer pipe is 35 per cent; brick 27½ per cent; terra cotta 22½ per cent, and tile, 20 per cent. It will be interesting to follow the course of Mr. Tregillus as a manufacturer. According to his theories the duty on the line of goods he will manufacture should not be necessary. If the facts of his theory we may expect him to appear in Ottawa with the next Grain Growers' convention and ask for a removal of the duty on these goods.

## RECIPROCAL DEMURRAGE

Manufacturers and Grain Growers Working With Same End in View

The agitation for reciprocal demurrage is being taken up by all classes of shippers. Started some years ago by the Canadian Manufacturers' Association it was subsequently advocated strongly in the west through the columns of the press and through the Grain Growers' Association. In order to have the fullest possible information regarding delays in transit through the fault of railways, the transportation department of the Canadian Manufacturers Association has sent circulars to all its members requesting a detailed record of their experiences during the past few months. This will be used as a basis of argument which will shortly be made before the Railway Commission. The resolution dealing with the subject was as follows:

"Resolved, That the Canadian Manufacturers' Association join the application now before the Board of Railway Commissioners for a system of uniform penalties to be automatically applied against railways for their failure to receive, carry and deliver freight within a reasonable time as required under Section 94 of the Railway Act; such system to require the railways under penalty to place cars for loading within forty-eight hours after ordered; to lift cars within twenty-four hours after notification of loading; and to place cars for delivery at destination within forty-eight hours after arrival; the penalties to be similar to those which the railways are authorized to charge shippers and consignees for delay in loading and unloading cars."

Inasmuch as Eastern shippers did not offer any great opposition to the request of the railways two months ago to increase the demurrage charges on cars delayed it is felt that the claim for shippers' tolls from the railways for delays caused by them will be reasonably entertained when the case comes up for hearing.

## Urging Mixed Farming

Mayor Nelson, Medicine Hat, in the course of an interview in Toronto said that the farmers of the west are just beginning to realize that what raising stock and raising crops with mixed farming when it comes to making money. Eggs and butter never go below 75c the dozen and pound in a large section of the west, and now threaten to reach the dollar mark. The cities of the west are now endeavoring to bring this point home to the western farmers, and an organized effort will be made to encourage mixed farming in preference to wheat only. The main argument that is being used in this regard is the fact that bigger money and in shorter time can be made in this way than would be possible from the same effort in wheat.

## DEWARDO BARBOCK QUITS THE LYRIC THEATRE

On Friday last, before Judge Lees, sitting in chambers, Miss Muller, plaintiff in the Lyric Theatre case, applied for a receiver to be appointed until such time as the case is settled after the next sitting of the Supreme Court. Judge Lees appointed E. S. Hoge Receiver Pendente-Lite of receipts, rents and profits of the Lyric Theatre.

GEO. ENGLAND, Rec. Sec'y.

## JUDICIAL SALE

Pursuant to the final order for sale, there will be offered for sale by J. White, auctioneer, at the offices of Latimer & Hotterill, in the City of Red Deer, at 2:00 p.m., on 15th day of July, 1913, the following lands:

Parcel No. 1.—The N.W. ¼ of section 36, township 37, range 28, west of the 4th Meridian. The property is about four miles south west of Red Deer. The quarter is open prairie land, level, and can all be cultivated.

Parcel No. 2.—The fractional S.E. ¼ of section 2, township 38, range 28, west of the 4th Meridian, east of Red Deer river, containing 75 acres or thereabouts. The property is about 4 miles from Red Deer; about 10 acres is bottom land, and balance bench land. There is a log dwelling house 24 x 30, shed on the outside, latched and plastered inside, and a log stable 27 x 40, good hay loft above, and shingle roof on the property. The property is well watered by good springs and the Red Deer River.

Parcel No. 1 will be put up at the upset price of \$2,200.00.  
Parcel No. 2 will be put up at the upset price of \$1,100.00.

Terms of payment, Ten per cent, to the plaintiff's solicitors at the time of sale; the balance into Court within sixty days without interest. The sale is subject to the standing conditions of the Court. Further particulars may be had from Messrs. Greene & Payne, of Red Deer, Alberta, or Clifford H. Reilly, of Calgary, Alberta.

DATED at Red Deer, Alberta, this 23rd day of June, A. D. 1913.

F. S. SIMPSON,  
Deputy Clerk of the Court.

Approved  
W.A.D.L.

## Servians Have Lost 6,000 Men in Three Days

### BULGARIA TRIES TO DIVIDE THE POWERS

#### Servians Have Captured 2,000 Prisoners and 300 Bulgarian Guns

London, July 3.—The condition of affairs in the Balkan rupture is extraordinary. The twenty-four hours which the Bulgarian government accorded to Greece and Servia to cease operations have expired. During periods Bulgaria undertook to abstain from hostilities in order to give Russia time to intervene in favor of peace. But hostilities are being carried on on both sides, apparently with the ferocity characteristic of the Balkan wars, and no declaration of war has yet been made. The respective diplomatic representatives are still at their posts. There is now only the faintest hope that Russia or the powers will be able to prevent the struggle which is to decide whether or not Bulgaria shall be predominant in the Balkan confederation.

#### ROMANIA TO MOBILIZE

A new complication arose today in the decision of Romania to mobilize her army. What Romania will play is quite unknown, but she is generally expected to follow her traditional policy of awaiting events, of her readiness to take advantage of wherever it may be obtained with the least risk or trouble. Romania's mobilization causes uneasiness in Austria where it is regarded as a defeat for Austrian diplomacy. Little news has come to hand today of the military operations in Macedonia, and on account of the fact that Bulgaria, as in the former

campaign, is very reticent regarding her military movements, and because the reports from the Servian and Greek sides are clearly exaggerated, it is exceedingly difficult to form any estimate of the actual position of affairs.

#### WHAT BULGARIA'S PLANS ARE

It is believed from the disposition of her troops that Bulgaria has carefully prepared a plan to place some of her forces between the Greeks and Servians and prevent their junction, and it is reported that the Bulgarians are now executing a great flanking movement in the direction of Planaka. The Belgrade government issued no reports from the theatre of war today, but according to a despatch from Premier Pachitch to the Servian legation at London, the Servian losses in the first three days' fighting were six thousand killed and wounded. This included the great battle at Orskowka. The Servians captured 2,000 prisoners and 300 guns from the Bulgarians, whose casualties exceeded the Servians. Sixty of the prisoners were officers. That very heavy fighting occurred is confirmed by the arrival of 2000 wounded at Belgrade. Official reports issued at Athens claim the capture of Guegheli and Kilish after severe fighting and heavy losses. It is added that Bulgarian prisoners declare that the Bulgarians are preparing to attack Saloniki.

## Sons of England Institute Grand Lodge of Alberta

On Monday evening, June 30th, in the Oddfellows Temple, Calgary, the first Provincial Grand Lodge of the Sons of England, in the United Kingdom, was inaugurated by a distinguished gathering. Among the best known members of the Society present were E. A. Miller, Supreme President, and John W. Carter, Supreme Secretary. The first important work was the election of officers, the following being the result of the polling: Past Grand President, Fred Robinson; Leithbridge; Grand President, H. Chapman, Edmonton; Vice President, H. Baker, Medicine Hat; Grand Secretary, B. Gale, Calgary; and Grand Treasurer, H. Oddy, Calgary. During the evening a pleasing incident took place, when Supreme President Miller was presented with a silver tea set, and a venerable Supreme Secretary John Carter was presented with a box of cutlery, by the members of the order, as a token of their esteem. Prior to the inauguration ceremonies a splendid banquet was held in the Pagan hall, to which over 300 members sat down. Dr. R. O'Sullivan was the chairman, supported by Mayor Sinnott, Archdeacon Hoshin, F. E. Eaton, C. F. Adams, President of the Canadian Club, T. O. Tweedie, K.C., M.P., R. H. Fairley, Grand Master of I.O.O.F., E. H. Crandall, M.M., G.L.O.L., and P. D. MacKinnon, President of St. Andrew's Society. The toast master introduced the first speaker, the Venerable Archdeacon Hoshin, who was received with great applause. He

said that no greater compliment could be paid him than to be asked to propose the toast of His Majesty the King. In the olden days, when the King led his troops into battle, it might have been an easier matter to propose the toast, but being so far away from him it more difficult, but it was a certain thing that the people were realizing that the King in his authority was exercising a quiet influence, not over his own people, but the people of the world. We pride ourselves, said the Archdeacon, and rightly so, of being members of the greatest nation that the world has ever seen. We are in this province, as it were, on the rim of a melting pot, and into our domain are coming people of every nation and every tongue. Are these people to grow up free, moral and good people, and who is to see that they do? You and me. If you call your selves Sons of England for anything, let it be that you stand for the advancement of a nation, and see that that which made England great in the past, shall make our beloved land great in the future, and let each of us do our best to make this country the pride, the honor and the gem in the crown of the world of nations and in the Empire we are so proud to belong to. Mayor Sinnott, T. M. Tweedie, K.C., C. F. Adams, and F. E. Eaton also addressed the gathering, and received great applause. Red Deer Lodge No. 308 was represented by Vice-President Bro. A. R. Pike and Treasurer Bro. A. G. Ayres.

### C.N.R. Line from Regina to Red Deer is Approved

Ottawa, July 2.—An application of the Grand Trunk Pacific for the extension of its branch line from the dock at Prince Rupert round the foreshore of Kaien Island and thence along the Shawanwan Passage was considered by the minister of rail-roads today. The entire branch consists of three and a half miles of road, which has already been approved to Point Hayes. The portion for which approval was asked today consisted of about a mile southward from the latter point. Hon. Frank Cochrane was of the opinion that it should give the railway control of the entire foreshore of the island. He stated that before giving his official approval he would like to see the railway company about the matter. The application was therefore allowed to stand for the present.

#### REGINA TO RED DEER

An application of the Canadian Northern Railway for the revision of one hundred and forty miles of its line from Regina to Red Deer was approved and granted. The line revised runs from Alsbek easterly, and the revisions are of minor nature, there being no discussion on the matter.

At the request of counsel for the railway, an application of the Kettle Valley Railway for approval of a revision of its route between Spruce Lake and Gold Water Summit, B.C., was allowed to stand until the next hearing.

### Sells-Floto

The Sells-Floto circus, which comes here on July 17, has for years maintained the reputation of having the best and most comprehensive display of horse and dog acts appearing with any travelling organization, and this year, for the benefit of their patrons, they will make a special display of these wonderful animals in a large tent adjoining the animal menagerie, so that their patrons and lovers of good horses generally may feast their eyes on the various breeds and individual champions which go to make up this wonderful collection.

In it will be found specimens of the Percheron, representative of a thoroughbred, standard bred, Suffolk Punch, coach horses, Hackneys, hunters and general purpose horses. It will form an interesting study for those who are either closely connected with the business of horse raising or farming, besides those who love the horse for himself and desire to see him at his best.

The doors of the circus proper will be open one hour before each performance in order that the menagerie and Horse Palace be looked over before patrons take their seats.

#### FOR SALE

Detached residence, five rooms and bath. Brick foundation, furnace, electric light. Will sell on easy terms, or exchange for land.

Tent for sale, 12x16, 4 foot walls, \$30.00.

Detached residence new, solid brick, ten rooms; fully modern, with first class plumbing, gas, electric light, and all modern conveniences. For full particulars and terms apply Owner, 197, Sixth St. N.E. Red Deer, July 2, 1913.

## Sporting Notes

Football has been quiet the last two weeks in the city, with the exception of Dominion Day, when the Tynesiders of Calgary and the Callies of Edmonton visited the city to try and lift the Citizens' Cup. It was quite expected that Hillhurst would be here, having already won the cup twice in succession, but they found they could not manage to come, and so the cup finds a new home for the next twelve months. The two Red Deer teams, the United and Firemen, put up a good fight against their more classy opponent—the Firemen running the Tynesiders to a draw at full time, and losing by the odd goal in the extra fifteen minutes played. While giving the Firemen all the credit possible, there was no getting away from the fact that the team representing the Tynesiders whom the Firemen played against were not a patch on the Callies that the United had to meet. The Callies played beautiful football, and won the cup without any effort, having less to do against the Tynesiders than they did against the United. One thing against the Tynesiders was, of course, that they were in the match with the Firemen, but, notwithstanding that fact, they were not in the same class with the Callies, who would probably have won if Hillhurst had been here. It is the general opinion that had Red Deer played their strongest United team they would easily have won the cup, and given the Callies a good run for the cup and first prize. J. Oliver and J. Wright were both injured accidentally during the game. Archie Stewart of Calgary, made a very efficient and hard working referee for all the games.

The visiting football and baseball was appreciated by one and all.

The juniors show lots of ability in jumping, but need training.

The competitors in the athletic events were few in number. The Smiths predominated.

Red Deer has the making of a first class athletic club. All we need is organization. Wake up. Talent is being wasted.

We hope the school will have an annual sports day this year; and, what is more to the point, we hope they will prepare for it away ahead. Teach the young the value of athletics.

The championship sports, at Edmonton, on Tuesday last, were held under adverse conditions, rain making the track very heavy. However, two Alberta records were broken, the half mile and the 440 yards. In the sprints, Hillhurst, who has for the past year or so been capturing a goodly share of the prizes, was forced into second place by R. S. Sheppard, a new man, who won the 100 yards, the 220 yards, and the quarter mile. Sheppard won the all-round championship, and the Edmonton Y.M.C.A. led in number of points.

The relay race, cowboy horse and 35th Central Alberta Horse wrestling teams expressed satisfaction with their visit and treatment at Red Deer on Dominion Day.

There was more than what met the eye in Alex. McVillie's notes in the Herald last week about not holding Red Deer football boys too cheap.

Hillhurst and Callies are not getting it all their own way in football these days.

Why are Red Deer United not united? Some know, do you?

The sports committee deserve every credit from citizens and visitors for the enjoyment put up on Dominion Day.

### Made-in-Canada Train

Portage La Prairie, Man., July 1.—The Made-in-Canada exhibition train completed here tonight, its second annual tour of Manitoba, Saskatchewan and Manitoba, and immediately left on its return trip to Toronto and Montreal. By the time it arrives at the latter city it will have covered sixty-six hundred miles in fifty-two days. The total attendance has been approximately 230,000 people.

Altogether the Made-in-Canada train made one hundred and twenty-three stops. All along the way the management made inquiry regarding the condition of the crops, and was informed that prospects at this time of year were never better for the good yield. There being an abundance of moisture at practically every point. Continued weather, however, is needed to avoid a late harvest. In every district adapted to mixed farming, there is a decided movement in that direction, evidence of this being seen in the increased output of cattle, hogs and sheep products. Every person is talking mixed farming.

### Red Deer Gun Club at Calgary

Dr. Plaxton, Fred Lund, Dan Smith and W. R. Davis were representing the Red Deer Gun Club at Calgary on Thursday last, and succeeded in gaining the 3rd place in the team shoot. Dr. Plaxton made a great showing, killing 64 birds consecutively, thus winning the long run prize over all other competitors. The Doctor was surely in great form, and has every credit coming to him for such a brilliant performance. Fred Lund and Dr. Plaxton were also in the money class four times, and then, to help boost Red Deer, Fred Lund killed 43 birds out of 50 in the Alberta championship, getting 4th prize.

## Ad. Judging Contest

In order to encourage a study of the Prize List and the advertisements therein, the Red Deer Exhibition Directors offer four cash prizes of \$10, \$7, \$5, \$3—\$25 in all—for the four best selections of the advertisements in the prize list of 1913, under the following conditions:

Select four advertisements from the Prize List which you consider the best advertising, indicating your first, second, third and fourth choices.

Give three reasons for your first choice.

Competitors are at liberty to indicate, in any other ads, any special features which they deem attractive.

In the competition the type and arrangement of the advertisement is not to be considered, simply the material.

The Competition is open to the residents of the Red Deer District, from Nordegg on the west to Great Bend on the east, Lacombe on the north and Innisfail on the south.

Mail your selections to the Secretary of the Red Deer Board of Trade, not later than August 9th.

## Local and General

Mrs. L. J. Porter will not receive Thursday nor again this season.

Express rates are now lower by 20 per cent. than they were before July 1st.

Miss Devons, of the Memorial Hospital staff, is visiting friends in Calgary.

Mr. and Mrs. E. Michener and family are expected home from California on Saturday.

W. M. Jarvis was at the Lake for the week end. He has got his place looking fine now.

A. E. Short, of Vancouver, was in the city last week end, on his way to the Old Country.

J. T. Armstrong, of Vancouver, paid a flying visit to the city on Monday. He was on his way to the east.

Mrs. R. L. Uetz returned to Victoria, B.C., Wednesday last, after a pleasant visit with friends in the city.

Mrs. Muldrew, Alberta Ladies' College, is to be one of the speakers at the U.F.A. picnic at Gull Lake on July 11th.

A. Woods, of the W. E. Lord Co., staff, has been enjoying his holidays in Calgary and other places the past week.

L. Willison, proprietor of Sylvan Lake hotel, will call by appointment for passengers or baggage for the lake. Write or phone him.

Mrs. B. Bowes, of Stoughton, Sask., is visiting friends in Red Deer for a few weeks, and finds Red Deer quite a change from the prairie country.

The married men put it all over the single men at the exhibition grounds on Monday night by the score of 8 to 1. Dr. DeLong pitched for the married men and made quite a reputation.

Mr. and Mrs. Joe Brumpton, of Nanaimo, B.C., are visiting friends in the city, and will remain for some time. R. C. Brumpton is conducting the business in Joe's absence.

Miss Nash returned to Medicine Hat Hospital last week to complete her training as a nurse. Miss Nash was at home six months, resting after her severe attack of typhoid fever.

Why don't some of the would be town creators living in West Red Deer mend the road leading to their homes? The holes are there, with gravel right alongside, but where are the men with sand enough to use the gravel?

A beautiful carnation for every lady at the Empress Theatre on Thursday night, July 10th, and a special musical show by the Webb family. No extra charge, and no complimentary. Read the Empress Advt.

The weather is ideal at the present time, and never in the history of the province has grain looked better or made more rapid growth. There has been abundant moisture, and with warm, dry weather having will be general in a short time.

Rev. W. G. W. Fortune has retired from the Secretaryship of the Alberta Temperance and Moral Reform League, and will make his home in Victoria, B.C. Rev. R. M. Hamilton, of Toronto, succeeds Rev. Mr. Fortune in this important office.

The Red Deer Exhibition Association directors offer four cash prizes of \$10, \$7, \$5, and \$3 for the four best selections of the advertisements in their prize list. This is a most unique contest in which everybody may take part. Be sure to send in your selection.

C. A. Julian, Sharnan has received a splendid offer from the Toronto exhibition people to show Rosalind of Old Basing, the champion Jersey cow of the British Empire, at that exhibition. They offer to pay all expenses of row, going and coming, and give her the best treatment possible while there. They also will give Mr. and Mrs. Sharnan and family free transportation going and coming, and pay every expense, providing the best hotel accommodation, while in Toronto, and paying every other possible expense while there.

A motor bicycle had the pleasure of being run into by an automobile, which happened to take the wrong side of the road in coming around the corner of the small hill east of the oil tanks, North Red Deer, on Sunday evening last. The motor bicycle might have been an "Aval" but that does not mean it can fly, and in this case had to try and go under the auto. As the auto was a left hand drive, and the young chauffeur might have been left-handed also, we can easily overlook the mistake; but would advise him to be sure of the right and wrong side of the road before starting out again, as such a mistake might prove more serious the next time it occurs.

The Citizens' Band have favored the people of the city with several of their noted concerts recently. On Friday evening they gave one of their week day concerts, while Sunday afternoon they gave their second Sunday concert on the land office grounds. Many citizens turned out to hear the splendid music rendered, and were surprised at the really excellent rendition of the different selections. It is hoped the citizens will give the band every support in their efforts to entertain. Bandmaster J. E. Welton is the right man in the right place, and we are pleased at the notable progress being made by the band, as they are without doubt one of the leading musical organizations of the province today.

You'll like Red Deer West.

Jim Harkness is looking up old friends in the city.

C. W. Parke, Mrs. Parke and family are at Sylvan Lake for the summer.

C. P. Mellor and Ed. Hawkey, of Pitoc, were visitors in the city yesterday.

Watch J. C. Brazier's life and 15c sale this week at the Novelty Store, Ross Ave.

Mrs. Markell, of the Board of Trade, has been spending her holidays at the Lake.

Jack Tree and Dave Wright are at Lehighville representing the Red Deer Fire Brigade at the Firemen's Convention.

Dr. McKeown and J. G. Gillespie are organizing a baseball team to play Horn Hill at the picnic on Friday, July 11th.

Dr. Clark and E. Carswell, of the Farmers' Co-operative, spoke at the U.F.A. picnic at Loyalist, some miles east of Coronation, on Dominion Day.

"Phantom" and metal raincoats, fishing rods, rods, lines, hooks, cut, spools, and tape for rods, also fly hooks at John McVicar's book-store.

Mayor Gahbraith and Alderman Botterill are away at Winnipeg, representing the city in connection with the C.N.R. right of way through Red Deer.

A. E. Millar, of Aymer, Ont., Supreme President of Sons of England, and John Carter, Supreme Secretary, are registered at the Windsor Hotel.

Farmers! If a hail storm occurred tonight, are you protected? If not, see Percival Insurance Agency, over Ball's butcher shop, Red Deer. Insurance at lowest rates.

Mrs. Charles Brenner and her daughter, Miss Ella Brenner, who is teaching at Wainwright, left a few days ago to spend some weeks on the homestead near Dovecourt post office.

Just arrived, a large stock of mandoline and banjo tutors, dance piano and violin solos, also guitar, music, etc., at Hadley & Webb's music store. Try our music before purchasing.

Just received, a car of 40,000 lbs. of Plymouth binder twine. Farmers will do well to hook their orders early. Also have agency for Dain and starters and hay tools—W. Hammond, Massey-Harris agent.

On account of the general financial conditions, the management of the Red Deer Exhibition Association has decided to reduce the price of admission to the grounds from 50c to 25c for adults at this year's exhibition. We hope you will show your appreciation by bringing the whole family to the biggest fair and exhibition ever held in Red Deer.

Miss Gladys Alford won the 6th position in the News-Telegram competition, gaining a free trip to the Old Country, leaving yesterday. Her cousin, Miss Sibbald, of Banff, won 4th position, she also getting a free trip. Miss Alford desires to thank most sincerely those who subscribed or helped in any way towards her success, especially Messrs. W. E. Chadsey and John Malreuil.

Principal W. J. McLean, of Wainwright school, was in town over Sunday, visiting Mr. and Mrs. Joseph Cole. Mr. McLean is now a full-fledged B.A., having taken his degree at Queen's this year. Few people accomplish what "Mack" has accomplished, and The News, with hosts of his old friends, extended him congratulations on his pluck and perseverance against great odds. He has a bright future ahead of him.

### Orangemen's Celebration

The Orangemen of Alberta will hold a grand celebration on the exhibition grounds at Edmonton on Saturday, July 12th, in honor of the 223rd anniversary of the Battle of the Boyne. There will be a grand parade from the Thistle Inn, starting at 11:30. Lodges from all parts of the province will be present, and it will without doubt be one of the finest parades ever witnessed in Edmonton. The Red Deer Lodge will be strongly represented. There will be a good programme of sports, and a band contest for the Piper Cup, at present held by the 103rd Regimental Band of Calgary. Addresses will be given by W. Piper, Grand Master of the Red Deer lodge, and Mr. C. A. Ewing, M.P., and other gentlemen. A special train leaves Calgary at 1:30 on the morning of the 12th July, calling at all stations on the road, arriving at Red Deer at 6 o'clock. The return train from Red Deer is \$2.70. The train leaves Edmonton at 10:30 in the evening.

### FOOTBALL

The final game for the championship of the central district of the Provincial League, and for the winning of the Shell Shield, will take place in Red Deer on Wednesday, night, July 10th, at 7:15 p.m., between the Red Deer United and Didsbury teams. In the event of a draw, the game will be replayed on neutral ground. Red Deer United are not practising as yet, but for they have nothing to throw away as games with Didsbury in the past go to prove. There should be a good turn out to boost for the boys.

Go and see Red Deer West.

H. J. Snell is showing some very pretty Sylvan Lake broods.

Extra special value in carnations, 50c a dozen, Friday and Saturday, at Parker's.

Mrs. W. J. Partridge, North Sydney, N.S., is the guest of her sister, Mrs. W. R. Rudderham.

C. M. O'Brien, late member for Rocky Mountain House, was in Red Deer on Wednesday last.

H. S. Pearson left for Winnipeg, Monday, where he will be the judge for dairy products at the Winnipeg Industrial Fair.

A. Clutterbuck, North Red Deer, returned from England on Monday of last week, accompanied by his sister, Miss Mary Clutterbuck, who will reside with him in the future.

### Death of John McLellan

John McLellan, an old time resident of this district, died at his residence on Third Street South, on Monday morning, July 7th. The deceased carried a bad cold last winter, chronic bronchitis ensuing, which was eventually the cause of his death. As far as is known, he had no relatives in this district, but was supposed to have some in Michigan, U.S.A. A telegram was sent there, but as yet no answer has been returned. He possessed a homestead, two small houses on Third Street South. He left a will, the contents of which are as yet unknown. Rev. Mr. Brown undertook the funeral arrangements, which took place from Stone's undertaking parlors Tuesday afternoon. He led a very lonely life, and suffered for years from a badly broken leg, which never properly healed, necessitating his walking on crutches.

### HORN HILL PICNIC.

The annual picnic of the Horn Hill district will be held on Friday, July 11th, when something will be doing all day, including football, baseball and all kinds of athletic sports. The picnic will be held on the old grounds on Geo. Donnelly's farm. Refreshment stall on the grounds. Supper will be served. Ladies please bring baskets.

### Evangelistic Services

#### Concluded

The evangelistic services, conducted by Rev. L. Milton Williams, in the big tent pitched on the City Square, came to a close Sunday evening, June 29th, with a large number in attendance. The campaign throughout was highly successful, notwithstanding the inclement weather which prevailed the larger part of the time. Rev. Williams is a plain, convincing, logical preacher, and leaves no doubt in the mind of anyone as to where he stands on the great, fundamental issue of the evangelical religion. The gospel trumpet in his hand gives forth no uncertain sound. He believes in the whole Bible and preaches without fear or favor.

Altar services were conducted as in the days of old time Methodism, and many of those who attended were greatly helped and led to a clear knowledge of experimental salvation, and either in the forgiveness of sins or heart cleansing.

Thorough, definite work was the aim of the evangelist, and judging by the bright, happy testimonies of those who bowed at the altar and found what they came for, ample assurance was given that this end had been attained.

Mr. Williams went to Didsbury from Red Deer, having charge of the Provincial Holiness Association camp meeting at that point, July 4 to 14. He will be assisted there by Rev. E. P. Walker, D.D., one of the general Superintendents of the Nazarene church.

### BIRTHS.

At Red Deer, on July 4th, to Mr. and Mrs. C. Anderson, a son.

At Red Deer, on June 30th to Mr. and Mrs. W. J. Cahane, a daughter.

At North Red Deer, on June 27th, to Mr. and Mrs. J. K. Marshall, a daughter.

At Red Deer, on June 26th, to Mr. and Mrs. J. H. Brown, of Penhold, a daughter.

At Red Deer, on July 1st, to Mr. and Mrs. John Phelan, a son.

### DEATHS.

At Red Deer, on June 29th, 1912, Lester Arthur Hall, aged 2 months.

At Red Deer, on June 24, 1913, Margaret White, daughter of Mr. and Mrs. N. White, aged 7 months.

At Red Deer, on June 21, 1913, Susan Catherine Shandy, wife of J. N. Shandy, aged 22 years.

PROPRIETOR

**The Best Furniture Co.**  
EVERYTHING FOR THE HOME  
FIRST STREET, SOUTH RED DEER

**GRINDSTONES**  
IT PAYS TO USE GOOD TOOLS but the best is no better than the cheapest when it is dull.  
A sharp sickle takes half the work off your horses. In fact sharp tools always make easy work and save time and energy.  
OUR grindstones are easy running, mounted on wood or steel frames, turned by crank or treadle and will put a keen edge on an ax or hatchet, scythe or sickle in a few minutes.  
WE also have whetstones, and emery stones, as well as oil stones for mechanics' tools.  
WE price such goods on a mighty close margin, for we sell good tools and want them to do good work.

**The Day Hardware Co'y**  
GO AND SEE  
**RED DEER WEST**  
One of these fine evenings go and see Red Deer West.  
\* Note its magnificent situation—close in, convenient, easy of access.  
\* See the pretty new homes that have been built there during the past year.  
\* Take a look at the splendid gardens full of fine, fresh health-giving vegetables.  
\* Talk to the people who live there. Ask them how they like living in Red Deer West.  
Then ask yourself if you can afford to pass up this opportunity to secure such good investment or a beautiful home-site on such remarkably easy terms.

**The Smith Land Co.**
